

# Your Models

When logged in you will be presented with all models available to your account. The **Avontus Viewer** main screen displays a list of your scaffold models and any models shared with you by other Avontus Designer users.

## My Models

This section is where you'll find 3D models of all the scaffolds you created and imported in Avontus Designer. Tap on a scaffold name to open the model.

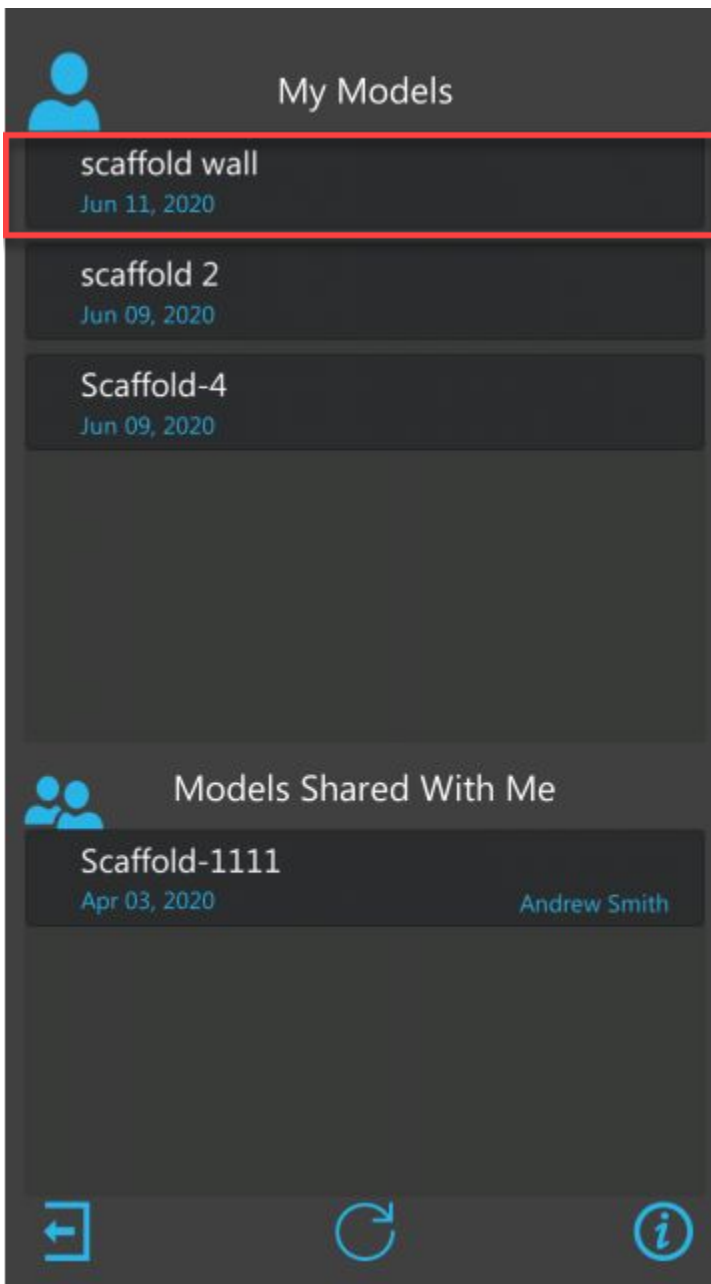

For more information on uploading a Scaffold Model, visit the [Uploading a Avontus Viewer Model](#) guide.

## Models Shared With Me

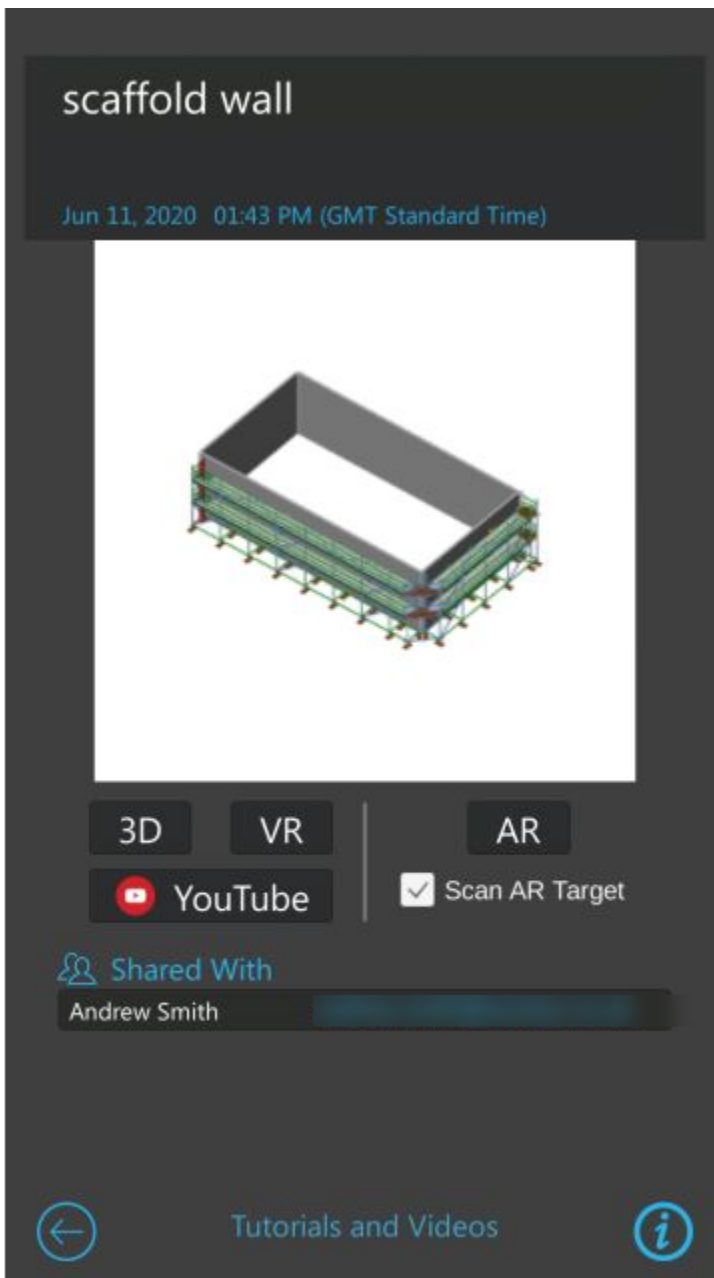

These are models that have been shared with you by other Avontus Designer users. Tap on a scaffold name to open the model.

## Scaffold Screen

Tap on a scaffold name to open the model.

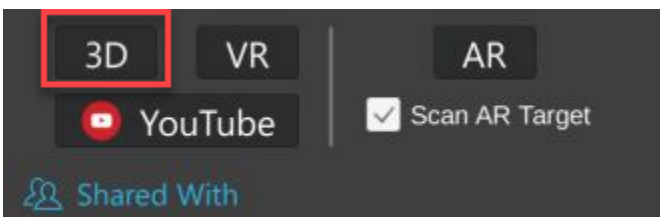

This will open the Scaffold Model screen where you can view with the model in a number of different ways including in 3D and video form.

### 3D

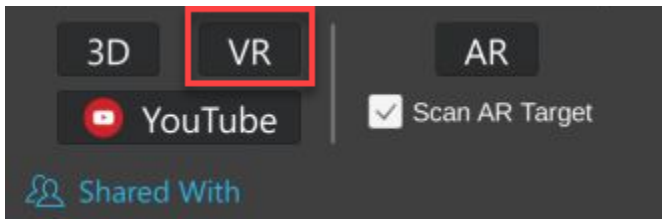

Select this to open a 3D model of the scaffold and navigate through the scaffold. This can be used to provide an idea of what the scaffold will look like when erected.

For more information, please visit the [Navigating the 3D Model of your scaffold](#) guide.

### VR

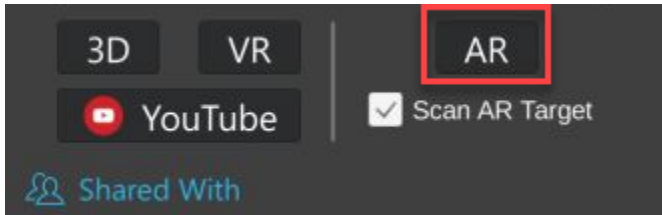

Select this to view your scaffold model in Virtual Reality (VR). Place your phone into your cardboard viewer to view your scaffold.

For more information, please see [Navigating through Virtual Reality](#).

#### AR

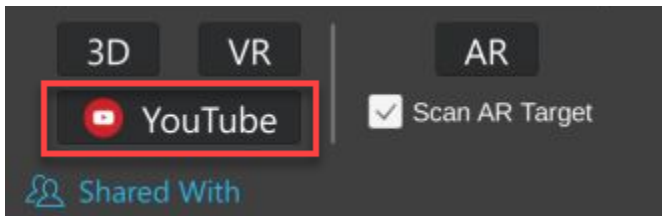

Select this to view your scaffold model in Augmented Reality (VR).

For more information, please see [Navigating Through Augmented Reality](#).

#### YouTube

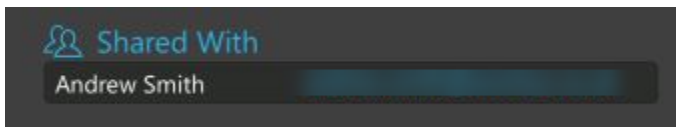

Tap the YouTube video to view any videos uploaded for this scaffold.

For more information on scaffold video, please see the section on [Publishing Videos to YouTube](#).

#### Shared With

The **Shared With** section displays which users you have shared the model with. This will show the name of the user and their email address.

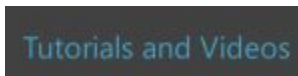

Tap on the user's email address to begin writing an email to the shared address.

You can share your models with other users on the desktop application. For more information, please visit the [Sharing a Avontus Viewer Model](#).

#### Tutorials and videos

Select this button to be taken to the following webpage - <https://www.avontus.co.uk/scaffold-viewer/>

This will provide further information on the Avontus Viewer product.

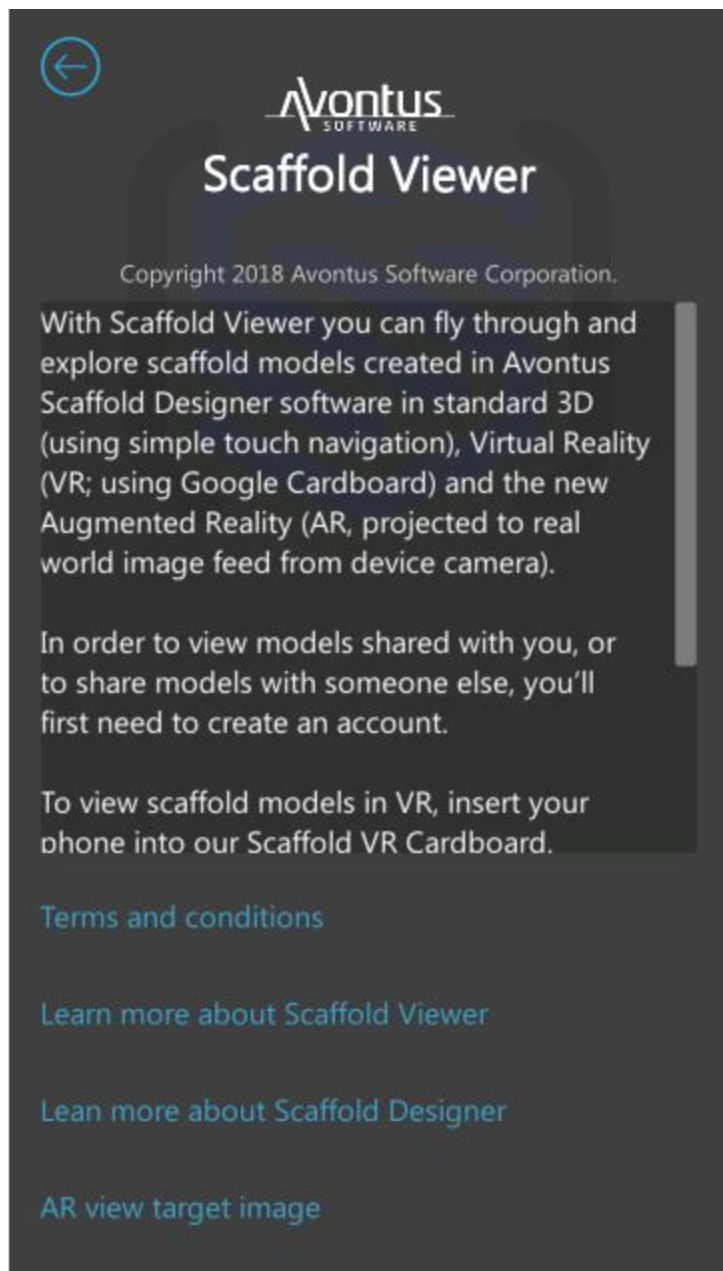

#### Information

Tap the I icon to view more information on the Avontus Viewer app.

This information will include options to learn more about Avontus Viewer and Avontus Designer as well as a chance to read the Terms and conditions.

The screenshot shows the Avontus Scaffold Viewer app interface. At the top left is a back arrow icon. The Avontus Software logo is centered at the top, with the title 'Scaffold Viewer' below it. A copyright notice reads 'Copyright 2018 Avontus Software Corporation.' The main content area contains three paragraphs of text. Below the text are four blue links: 'Terms and conditions', 'Learn more about Scaffold Viewer', 'Learn more about Scaffold Designer', and 'AR view target image'.

SOFTWARE

## Scaffold Viewer

Copyright 2018 Avontus Software Corporation.

With Scaffold Viewer you can fly through and explore scaffold models created in Avontus Scaffold Designer software in standard 3D (using simple touch navigation), Virtual Reality (VR; using Google Cardboard) and the new Augmented Reality (AR, projected to real world image feed from device camera).

In order to view models shared with you, or to share models with someone else, you'll first need to create an account.

To view scaffold models in VR, insert your phone into our Scaffold VR Cardboard.
